---

### Standard Features

FOLDING front table -12"d x 24"w (Some competitive bbq smoker pits have wider, yet not as deep tables which extend in front of the vertical chamber door. This is largely useless space since you have to move everything out of the way each time you open the door.)

4 accessory hooks underneath the folding shelf at the front of the bbq pit smokers

air cooled stainless steel spring handles on ALL doors and lids

removable cooking grate

two cooking racks in vertical chamber

two swing arms to hang cheese or sausage in the vertical chamber of the bbq pit smokers

rain cover cap at top of the smokestack located on the left end of the barrel of the bbq smoker pits

adjustable air intake on the firebox door on the firebox of the bbq pit smokers

lower cooking grate for larger items

top grill in firebox (2 positions available)

barrel/firebox heat-deflector 45° angled baffle between firebox and barrel of the bbq pit smoker

uses standard 18" logs

water reservoir (~6 gallon capacity)

1 1/4" grease & water drain and cap

port (with 1/2" NPT plug) for gas log lighter

ash rake /cleaning tool

(2) stainless steel temperature gauges

full sized steel ash pan
